Continuation of Substance of Interview including description of the general nature of what was agreed to if an agreement was reached, or any other comments: Applicant argues against the rejection over Walker et al because Figure 10A pertains to a device "entirely different" from the device shown through Figures 12-14. Examiner will seriously consider any written response but draws attention to column 17, lines 27-44, in Walker et al showing very broad scope of their ninth "embodiment" and inter alia also to the applicability of the structure of Figures 12-14 also as memory array (column 14, lines 58-66) ~~///~~ ..
